AGREEMENT FOR OPIOID MEDICATION THERAPY

Introduction

The purpose of this agreement is to give you information about the medications you will be taking for pain management only if that becomes part of your treatment plan and to assure that you and your physician comply with all state and federal regulations concerning the prescribing of controlled substances. A trial of opioid therapy can be considered for moderate to severe pain with the intent of reducing pain and increasing function. The physician's goal is for you to have the best quality of life possible given the reality of your clinical condition. The success of treatment depends on mutual trust and honesty in the physician/patient relationship and full agreement and understanding of the risks and benefits of using opioids to treat pain.

I (patient) understand the following (initial each):

- _____ Opioids may be prescribed to me on a trial basis. One of the goals of this treatment is to improve my ability to perform various functions, including return to work. These medications may be prescribed to make my pain tolerable but may not cause it to disappear entirely. If significant demonstrable improvement in my functional capabilities does not result from this trial of treatment, my prescriber may determine to end the trial.
- _____ Drowsiness and slowed reflexes can be a side effect of opioids, especially during dosage adjustments. If I am experiencing drowsiness while taking opioids, I agree not to drive a vehicle or perform other tasks that could involve danger to myself or others.
- _____ There is a risk that physical dependence or addiction to opioid medications can occur. Longer duration of therapy, higher doses of medications, and personal or family history of other drug or alcohol abuse increase this risk. If it appears that I may be developing addiction, my physician may determine to end the trial.

I agree to the following (initial each):

- _____ I agree not to take more medication than prescribed and not to take doses more frequently than prescribed.
- _____ I agree to keep the prescribed medication in a safe and secure place, and that lost, damaged, or stolen medication will not be replaced.
- _____ I agree not to share, sell, or in any way provide my medication to any other person.
- _____ I agree to obtain all prescription medication from one designated licensed pharmacy:
Pharmacy: _____ **Phone:** _____
- _____ I understand that my doctor may check a Controlled Substance Database or Prescription Monitoring Program at any time to check my compliance.
- _____ I agree not to seek or obtain any mood-modifying medication, including pain relievers, muscle relaxers, or tranquilizers from any other prescriber without first discussing this with my prescriber. If a situation arises in which I have no alternative but to obtain my necessary prescription from another prescriber, I will advise that prescriber of this agreement. I will then immediately advise my prescriber that I obtained a prescription from another prescriber.
- _____ I agree to submit to random urine, blood or saliva testing, at my prescriber's request, to verify compliance with my treatment plan, and to undergo be seen by an addiction specialist if requested.
- _____ I authorize the doctor and my pharmacy to cooperate fully with any city, state or federal law enforcement agency, including this state's Board of Pharmacy, in the investigation of any possible misuse, sale, or other diversion of my pain medicine. I authorize my doctor to provide a copy of this Agreement to my pharmacy. I agree to waive any applicable privilege or right of privacy or confidentiality with respect to these authorizations..

I understand that any deviation from the above agreement, at any time, may be grounds immediate cessation of all opioid therapy and may result in termination of the doctor/patient relationship with Dr. Bajaj, Dr. Barragan, Dr. Evans, Dr. Ratusznik, Dr. Ryba, Dr. Thomas, or Dr. Werner.

Patient Signature: _____ **Date:** _____

I obtain my pain medication from my primary care doctor or pain management physician:
